

Applicants for grant assistance must provide responses to the categorical evaluation criteria AND the Administrative Priorities in their grant proposals. Both sets of evaluation criteria and the Historic Preservation Fund (HPF) grant program guidelines are being provided for public review and comment. Please provide any comments to the DHPA Grants Staff by Friday, July 18, 2008. All public comments received will be presented at the meeting of the State Historic Preservation Review Board on July 23, 2008.

All public comments must be received in writing. Send comments by fax to 317-232-0693, by e-mail to skennedy@dnr.IN.gov, or by mail to DHPA Grants Staff, 402 W. Washington St., Room W274, Indianapolis, IN 46204.

FY2009 ARCHAEOLOGY PRIORITIES (Proposed changes for 2009 are indicated in bold type)

The Archaeology Category has been divided into two subcategories. Proposals submitted for grant consideration must fall into either one (but not both) of these subcategories. Survey, testing, and historic context projects will receive the majority of the total funding available for archaeology. These proposals should address questions #1 through #9 in Subcategory I. Projects specifically devoted to promoting public awareness and education or the preparation of nominations to the National Register of Historic Places for archaeological sites will receive up to \$30,000 of the total funding available for archaeology. These proposals should address questions #10 through #16 in Subcategory II. Proposals submitted under Subcategory I will not compete against proposals submitted under Subcategory II, as the total funding available for the Archaeological Category has been divided into the two set-aside amounts.

Applicants should note that while it is permissible to submit grant applications in both Subcategory I and Subcategory II, it is unlikely that both proposals would be funded. Therefore, if submitting one grant application in each subcategory, the proposed projects must be able to stand independently of each other in case one is funded and the other is not.

Instructions: Provide complete but concise answers for each of the priority statements below. Please be as specific as possible in your answers, and explain exactly how the proposed project will meet the priority issues. Most projects will adequately address one or more priorities, while only partially addressing others, and will be scored accordingly. No project will address every priority statement. When a proposed project does not address a specific priority, mark "NA" as the response.

FEDERAL REQUIREMENTS FOR ARCHAEOLOGY PROJECTS:

Eligible Activities:

- Reconnaissance Survey (Phase I-a: "archival research and a field visit to determine the identity and location of resources present in an area. Such surveys should be designed so that a determination can be made from the results as to when it is worthwhile to obtain the additional level of documentation (through an Intensive Level Survey) necessary for a National Register nomination").
- Intensive Survey (Phase I-b and Phase I-c: "the systematic, detailed field (and archival) inspection of an area designed to identify fully architectural, archaeological, and historic properties; and calculated to produce a level of documentation sufficient, without any further data, to evaluate National Register eligibility").
- Resurvey Activities **ONLY** to modify documented boundaries, identify resources not included in the property's previous eligibility determination, establish a property's relationship with other resources as part of historic context development, or upgrade existing inventory data.

- Limited Testing (Phase II) ONLY “to the extent needed to collect sufficient information to identify the resource and to assess National Register eligibility.”

NOTE: Research and Excavation beyond limited testing is eligible ONLY when it:

- a) directly addresses the Secretary of the Interior’s Standards for Identification,
- b) directly contributes to increasing an understanding of a National Register property or its evaluation/documentation,
- c) directly contributes to the preservation of a National Register site.

Ineligible Activities:

- Any archaeological activities that do not meet the eligibility criteria described above;
- Curation of archaeological collections beyond the project end date;
- Exhibition of archaeological collections beyond the project end date;
- Mitigation activities (Phase III).

ARCHAEOLOGICAL GOALS AND OBJECTIVES

The items listed below reflect Indiana's topical/geographical and historic context needs as identified by the Division of Historic Preservation and Archaeology.

All Archaeology Subcategory I projects should seek to broaden the state's historic and prehistoric archaeological database and answer questions critical to understanding of past human behavior and life ways. Consequently, the HPF Archaeology Category is keyed directly to prioritized topical / geographical target areas and the development of specific historic contexts that are critically important to address with this round of funding. Archaeology Subcategory II projects will be evaluated based on the number and quality of the proposed National Register nominations that will be produced or the quality or scope of the proposed educational project.

The Topical / Geographical Target Areas, noted below in Part I, indicate those areas within the state for which we (a) have less in the way of either an historic or prehistoric database, and (b) are subject to some form of land-use impact (natural and/or mineral resource extraction, metropolitan and/or industrial development, natural impacts, and detrimental agricultural impacts) that may affect the known cultural resource database and/or remove those resources that are yet to be discovered.

The prioritized Historic Contexts, noted below in Part II, reflect deficiencies in the state's database that may affect the state's performance in preservation planning, development of the state archaeological inventory, archaeological property evaluations, and the review of state and federal projects. Projects that seek to develop formal historic contexts (study units) will help guide the state plan in setting future priorities for archaeological survey and evaluations. Therefore, such projects are important to the continued development of Indiana's historic preservation and archaeology program.

PART I: Topical / Geographical Target Areas

All of the geographic areas noted below require reconnaissance level surveys to locate, identify, and evaluate sites related to the entire prehistoric cultural sequence and that of the subsequent Euro-American occupations.

Priority Areas:

- a. Areas along major water courses that have not been previously surveyed, have a high probability for site locations, and are threatened by development, mining or other mineral extraction, flooding, and erosion.
- b. Unsurveyed areas with a high probability for locating archaeological sites in the following counties: Floyd, Scott, Jasper, Benton, Fulton, Pulaski, Newton, Blackford, Starke, Montgomery, Fountain, and Ripley.
- c. Areas along major transportation corridors, such as Interstate Highways, with the potential for significant development.
- d. Unsurveyed areas in the following rapidly developing counties: Clark, Dearborn, Elkhart, Hamilton, Hancock, Hendricks, Johnson, **Lake**, Marion, Monroe, Porter, Vanderburgh, and Vigo.
- e. Special Topics Section: mound surveys in counties not already inventoried, sand ridges in Northern Indiana, glacial lakes in Northern Indiana, and uninvestigated rockshelter resources. High priority consideration will also be accorded for the evaluation of specific threatened sites targeted by the DHPA (refer to the attached list of sites entitled "Special Topic Sites").

PART II: Historic Contexts

1. Higher Priority Topics:

- a. Vincennes Culture, Western Basin Tradition in northeastern Indiana, Huber-Fisher-Langford Tradition in northwestern Indiana, Fort Ancient in southeastern Indiana (particularly early Fort Ancient).

 - c. Pioneer period and early settlement in Indiana, historic farmsteads and homesteads, early Euro-American settlements and towns, transportation related sites, industrial and urban sites, schools, military-related resources.
2. Middle Priority Topics:
- a. Goodall, Adena-Hopewell habitation
 - b. Mann, Crab Orchard
 - c. Bluegrass-French Lick
 - d. Early Archaic, Middle Archaic
 - e. Historic **Native Americans (replaced Indians)**
3. Lower Priority Topics:

 - e. Albee
 - f. Paleoindian
 - g. All other cultural traditions
